

**C500-12PT (Part # 2271sl)****POLYESTER SUPPORTED LAMINATING ADHESIVE****DESCRIPTION**

C500-12PT is a supported high performance, laminating adhesive designed for very demanding bonding applications. The laminating side (unwind) is coated with a high molecular weight, cross-linked acrylic adhesive which bonds well to urethane foams and to mildly plasticize materials. The liner side is coated with a high temperature, synthetic rubber-base adhesive that bonds well to high and low surface energy substrates and exhibits excellent shear strength. C500-12PT is recommended for wrap around applications where heat resistance is required. The RP100 adhesive has been certified to Ford specification ESB-M3G76-B2 and General Motors specification GM3622M type IV. C500 is also available with 78# Kraft liner.
